

Sunday Evening Home Worship Guide

Open with prayer.

This morning, rain is pounding the street. Waters are rising, and an "Emergency Alert" whistles over every cell phone in the restaurant - flash flood warnings are given for another hour. Rain can fall so much that we may no longer feel at home. When we hear thunder and lightning crack and rumble, we may no longer feel in control. When the winds begin to pound against doors, we may no longer feel we are safe at all. This world can fling storms at us that threaten our very lives. We can be secure and receive life that never ends if we hear and do what Jesus tells us to do. There is no rain that can harm the life Jesus gives. Read Matthew 7:24 – 27.

Discuss with your family or think and pray on your own: Do we do what Jesus instructs? Do we honestly live in a house built on sand? If so, what can we do today to live in a house built on rock? If we do as Jesus says, will we still have fears? Do fears have the last word?

Pray about Jesus' plan for your life. Jesus knows. Do something Jesus wants you to do.

Close with prayer in thanksgiving to God."
