

Sunday Evening Home Worship Guide

Open with prayer for God's wisdom to be given.

Just a couple of months ago, the weather was scorching, and it was very easy to be thirsty. Truly cold water never tasted so great. Perhaps recently, we appreciated, once again, how good it was to drink milk right after eating cookies. Milk often tastes the best in that situation. Everyone can think of a time or situation where we were very, very thirsty. Are you thirsty for the life only Jesus Christ can give? Have you ever drank water and only then discovered just how thirsty you were? We thirst for answers with an intensity we don't even know we have, answers that only Christ provides. Attend church, study scripture, pray even if you never have before. Accept Christ into your life, and live by His direction. You will never be thirsty again.

Read John 4:7 - 14

Discuss with your family or think and pray on your own: Does Jesus offer the gift of living water to everyone? In what ways is the living water of this account the same as life? What must we do to receive this living water?

Close with prayer in thanksgiving to God.
