

Time to Recharge

Open with prayer to God for wisdom.

We rely on smart phones, tablets, and other, rechargeable devices to do a great deal these days. Can we remember, or imagine, what life would be like without them? Of course, none of them will work without a recharger and a receptacle to put more power back into those devices. God created us with tremendous potential, and we rely on one another to function well on a daily basis. We run out of "power," so to speak as well - run out of time, out of patience, out of answers, out of energy; we can run out of hope, and so forth. Where can we recharge?

Read Psalm 23.

Questions to prayerfully consider or discuss: Why were shepherds so important to sheep? What would happen to sheep without the shepherd over time? Are you ready to accept you are a sheep, greatly in need of the Shepherd? Are you following the Shepherd today?

Close with prayer in thanks to God.
